IHTD Youth Film Festival VIDEO tool kit Ways to think about designing your project

How much? The yearly budget for the military is \$1 trillion.

There are a trillion ways to think about a trillion dollars...

How will you make your video original and compelling? Here are some prompts to help you get started on your concept:

- If I had a trillion dollars....
- A trillion dollars for war or our communities?
- What does a trillion look like?
- Dear President Obama and Members of Congress....
- What the average person does NOT know about how our federal budget is spent.
- Today I went shopping with a trillion dollars...
- What's your version of the Federal Budget look like?

VIDEO tool kit How to make a great video in 3 minutes or less.

These days, just about everyone is making videos. You don't need to have a fancy camera or editing equipment, all you need is a camera phone and an internet connection to post your video!

Our friends at Witness have posted a great video online that will help you make a good video with very little equipment: <u>http://www.youtube.com/</u>watch?v=B7BFnhYX2vs

But we've also got some simple tips to help you even if you DO have a fancy camera.

1. Plan ahead. Even if your idea is simple, think through how you want to do it before you start

recording. If your idea is more complex, write out a script or a storyboard.

- 2. Make sure you have enough light, especially if you are shooting indoors.
- 3. If you are recording sound with your camera mic, make sure there are no background noises and then make sure your speaker is loud and clear.
- 4. Make sure you can see everything/everyone in the shot that you need to see before you start recording.

5. Consider including the title to your video and credits at the start and finish of the video.
